KYLO REN'S COMMAND SHUTTLE™

STAR WARS

"I'LL SHOW YOU THE DARK SIDE."

– Kylo Ren

From the harsh deserts of Jakku to the most remote corners of the Outer Rim, Kylo Ren's Upsilon-class shuttle serves as a mobile command centre and a stark symbol of the First Order's might. A technological masterpiece, conceived by loyal servants of the old Empire, it's a perfect fit for the dark side's ambitious and ruthless new apprentice. As the shuttle emerges from the shadows,

descending to a remote settlement on Jakku in *The Force Awakens*, it becomes evident that a new threat has emerged from the embers of the old Empire. Of course it's an absolute LEGO® *Star Wars*™ favourite! With new building techniques, we have revived this supreme starship as an impressive display model with authentic details and shapes.

Enjoy building!

FOR THE DARK ELITE

Kylo Ren's command shuttle was created in secret by Imperial loyalists after the fall of the Empire. Manufactured by Sienar-Jaemus Fleet Systems, far from the eyes of the Republic, it was designed specifically to carry high-ranking officers of the First Order. At 19.1 metres (63 ft.) long and towering 37.2 metres (122 ft.) high, it can accommodate up to five crew members and ten passengers. While the twin heavy laser cannons make it a formidable opponent in battle, the shuttle's superior strength lies in its defence capabilities.

© & ™ Lucasfilm Ltd.

A FIRST ORDER BIRD OF PREY

The upper wings house advanced built-in threat sensors, providing an unparalleled overview of enemy movements. The lower wings are equipped with powerful shields and jammers to ward off attacks. As the wings fold up during landing, they minimise the shuttle's profile and help protect its vital systems and sensors. This makes the shuttle nearly impenetrable in situations when other starships might be vulnerable. This model is designed to capture and display the imposing shuttle with its wings either in flight mode or towering upright in landing position.
