USER MANUAL

MODEL:C53

5 IN 1 MAGNETIC WIRELESS CHARGING STAND

Product Parameters

Matching Type-C Adapter fast charger: 65W
Input: 20V/3.25A
Built-in cable out put: 5V/3A 9V/3A 12V/2.5A 15V/2A 20V/1.5A
Cell phone output: 5W,7.5W,10W,15W
AirPods output: 5W
Apple Watch output: 1~3W
The maximum total output of the device: 50W
Build-in cable output for iPad or Laptop: 30W
Effective transmission distance: <5mm
Conversion efficiency: <80%

Instructions

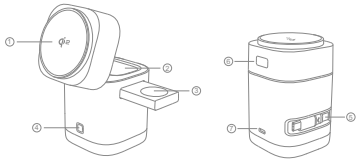

1. Lighting method
The indicator light is a warm white light

LED light color	Power on	Standby mode	Phone charging	Earphone charging	Be filled with	Foreign Object Detection	Overvoltage	Overcurrent	The temperature is too high
Warm White	Turn off the light after 3 seconds of illumination	Turn off the light	Turn off the light	Turn off the light	Turn off the light	Flash light	Flash light	Turn off the light	Flash light

The brightness of the night light are two levels:
The first level is darker, The second gear is brighter.
Key control sequence: Light on, 1st gear / light on, 2nd gear / light off, in this loop.

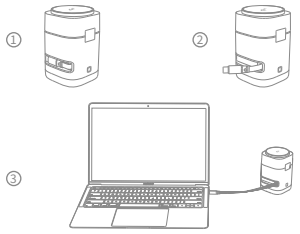

2. PRECAUTIONS
1. This product must be powered by 20V/ 3.25A 65W PD adapter, if a tablet PC or laptop will be charged.
2. Ordinary adapters of 5V are not supported and using a regular 5V adapter will result in non-functioning.

5. Build-in type-C cable
6. Infrared sensor rotation
7. Type-C input port

Built-in type- c cable operation method (as shown in the picture below)
*The charging cable is 1 meter .

Product Description

Applicable products: This product is a 5-in-1 fast wireless charger that supports 5W/7.5W/10W/15W wireless charging and PD protocol fast charging adapter. It can charge all wireless charging phones that meet Qi standards, AirPods,and Watches simultaneously. And with a 1M built-in cable PD30W, output/night light function. The Cell phone wireless charger supports infrared induction rotation or long press button rotation. The built-in cable output can be used to charge laptops, tablets, computers, and mobile phones.

Precautions

1. It has Over-current protection (OCP), Short circuit protection (short), Over voltage and under-voltage protection (UVP) Foreign object Detection (FOD),no-load protection and other functions.
2. If Mobile phone/ Earbuds/ AirPods /Apple Watch has a protective case, please confirm that protective case is Non-metallic and flat without protrusions, and thickness should not exceed 2mm.
3. Avoid direct sunlight, high temperature and other environments, and Stay away from fire and heat sources.
4. Store in a dry environment and avoid contact with corrosive Substances.
5. When children use the power supply, they should be guided by their Parents and operate according to the contents of the manual to ensure that it is correct use power.
6. Do not disassemble or put into the fire without permission to avoid explosion.
