Instructions for Use

Charging:
Connect the night light to a 5V power source using the provided charging cable.Charging time is 2 hours During charging, the indicator light on the lamp head will show the charging status, and the indicator light will turn off when charging is complete.
Steady-On Mode:
Single press the switch to activate the steady-on mode. In this mode, the night light will work continuously for 6 hours and will require recharging afterward.
Motion Sensor Mode:
Double press the switch to switch to motion sensor mode. In this mode, the night light will automatically turn on or off based on detecting human activity. This mode can last up to 1 month, saving energy.
Brightness Adjustment:
Long-press the switch button to adjust the brightness of the night light. Choose the appropriate brightness setting according to your personal preference.

Installation:
The night light uses magic tape for installation. You can stick the light to closets, bedside tables, hallways, or any place that requires illumination. Ensure that the installation surface is clean and smooth for optimal adhesion.
