Technical Specification

Resolution	1920*1080/1280*720(Matching)
Field of Angle View	166°
IR LED	6*850mm
Wi-Fi	IEEE 802.11 b/ g/ n
Audio	Two-way talk without noise
Recording	Device SD Card recording (20 seconds)
Storage	Support 8G/16G/32G
Battery	18650 battery(LI-Ion,2600mAh)
Monitoring	Device Button, Motion Detection, Remote Live View
Notifications	Push Notifications quickly
Device Wakeup	Fast wake up and push notification
Power Consumption	Power Consumption Standby200 uA, Working170 mA

Two18650 specification batteries(total 6800 mAh), work regularly for 8-12 months.

Ding-dong Pairing

(Needs to be purchased separately)

Code Pairing: 1.Short press the button of Ding-dong responder, indicator light is always on

2.Press the button of doorbell to make the code successful

Reset: 1.Press the button of Ding-dong for 5 seconds.

Number of connections: 1 Ding-dong can connect with12 Doorbells;
1 Doorbell can connect with unlimited amount of Ding-dongs.

Function Introduction

LONG BATTERY LIFE:The capacity of the 18650 battery is 2600mAh,which equates to 6 months of battery life

Million HD pixels collocated with wide-angle lens

Support mobile phone remote fast wakeup device within 1 second.

2.4G Wi-Fi connection

High quality two-way talk with noise cancellation

Support PIR motion detection,when someone hovers at the door, immediately alerts push notifications to the mobile phone.

Day and night mode automatic switching, whether day or night, the image is clearly visible, for your safety and family security.

Q&A

Q:Why can't the Equipment be connected to WIFI?

A:1. Please confirm that the WiFi connection is under the 2.4G protocol.

2. Confirm that the Red Indicator Light is blinking slowly.

3. Check whether the account name and password are correct, and whether there are excessive spaces

Q:The Equipment is online, and there is a trigger event, but the cell phone does receive any push messages

A:Check whether the app has "automatic starting" activated, and whether the "application authority" has the notification function activated

Disable "battery optimization" and "close the app when in the background and Always On Display" (depending upon the actual situations, considering different optimization modes for different cell phone manufacturers)

Q: What kinds of power supply modes are supported?

A:1. The Equipment can use the battery independently to work.

2. AC (16-24V) may be used to charge the built-in battery.

3. USB is available to charge the Equipment.

Q: Does the Equipment support 3G?

A: 3G cell phones are not supported, only 4G is supported

NOTE
Please choose the correct 18650 battery

to use with the smart doorbell!

Flat head

Shart head

The batteries are not included!
